

Estudio de Google Consumer Barometer 2017

El año de los móviles

Según nuestros informes, esta es la primera vez que el uso de Internet móvil supera el 50% en los 63 países incluidos en el Estudio de Consumer Barometer1. Nuestro análisis observa cómo este cambio en el comportamiento influye en la actividad en línea, las habilidades digitales y la adopción de nuevas tecnologías y servicios.

Acceso a Internet mediante smartphones durante 2017

Base: población en línea mayor de 16 años

| Argentina (AR) | 86% |
